

THE DAY'S DOINGS AT WASHINGTON

SENATOR LEE MANTLE HEARD FROM.

Defense of the Free Silver Senators Who Presented the Passage of the Dingley Tariff Bill—House Debates the Sectarian School Question.

Washington, April 10.—After being in retirement for some weeks the tariff-silver bill was brought forward in the senate Thursday as a text for a speech by Mr. Mantle of Montana, one of the five republican senators who voted against considering the tariff bill. Mr. Mantle defended the course of the silver republican senators, declaring that the Dingley bill was not framed as a patriotic measure. He urged that unsectional protection should be linked with bimetalism.

He referred to the recent utterances of President Cleveland before a missionary gathering derogatory to the west and declared that within a radius of five miles from Carnegie hall, New York, where Mr. Cleveland spoke, there was more poverty, ignorance, squalor, starvation, crime and criminals than in all of the silver states combined. He gave statistics comparing the silver states with five eastern states, showing the former to be abreast and ahead of their eastern sisters in material and moral standing.

Mr. Mantle said the attacks sprung mainly from the fact that five republican senators from the west voted against proceeding with the tariff bill at an inopportune time. The five silver republican senators were denounced as "traitors" to their party for failing to vote for the tariff bill. But he denied that the Dingley bill was a republican measure, and he quoted the statement of Mr. Sherman that the bill was strictly non-partisan and was not a republican measure. If the Dingley bill was a revenue measure, as claimed by its friends, then no manufacture suffered from its failure, as it was protection, not revenue, that was vital to this interest.

In view of these facts Mr. Mantle suggested that the efforts made to read him and his silver associates out of the republican party had better be reconsidered by the eastern press, and that these senators be permitted to remain in that party.

IN THE HOUSE.

Further Debate on the Question of Adjoining Sectarian Institutions.

Washington, April 10.—The house Thursday, after debating the bill to abolish compulsory pilotage on sailing vessels engaged in the coastwise trade, defeated the measure by a large majority—57-117.

The District of Columbia appropriation bill, which was recommitted early in March after a protracted fight against appropriations for private and sectarian charitable institutions, was brought into the house with the specific appropriations stricken out and containing in lieu thereof an appropriation of a lump sum for charities, to be expended under the direction of the district commissioners, with the proviso that no part of the appropriation should go to institutions in ecclesiastical or sectarian control. The feature of the debate was a vigorous attack on the A. P. A. by Mr. Fitzgerald (dem., Mass.). Mr. Bartlett (dem., N. Y.), in opposition to the amended district bill, reviewed the fight that had been made against appropriations for sectarian charitable institutions. Instead of making such appropriations directly, he said, it was now proposed that congress shift the responsibility to the shoulders of the district commissioners by giving them a lump sum equal to those appropriations to be expended according to their discretion.

The amended bill was passed on a rising vote—134 to 21.

NEW RECIPROCITY BILL.

A Plan to Put the "Golden Rule" into Commercial Practice.

Washington, April 10.—The subcommittee of the committee on ways and means has agreed to report to the full committee a bill which was offered by Mr. Hopkins in the house of representatives Thursday. By the bill the president is authorized and directed as soon as may be after the passage of the act to enter into negotiations with several classes of countries with the view of the arrangement of commercial agreements in which reciprocal and equivalent concessions may be secured in favor of the products of the farm, fisheries, mines and manufactures of the United States. The bill provides that if any country refuses to enter into reciprocal arrangement, proposed by the president, making such concessions as he may deem equivalent, the president shall by proclamation announce the fact and thereupon the highest rates of duty known in any of our tariff acts since Jan. 1, 1860, shall immediately apply to the imports from such country. It also provides a means by which any country upon which the excessive duties lie may secure their remission by making concessions deemed sufficient by the president and entering into any agreement.

Naval Appropriation Bill.

Washington, April 10.—The senate committee on appropriations Thursday reported the naval appropriation bill. The provision regarding large and swift torpedo boats is changed by re-

ducing the number from five to three, increasing the speed of these from 26 to 30 knots, and reducing the cost from \$875,000 to \$300,000. Instead of ten or more additional small torpedo boats the number is limited to ten and their cost is made \$500,000, instead of \$800,000. A provision is added that not more than two of the battle-ships and not more than three of the torpedo boats shall be built in one yard or by one contracting party, the contract to be awarded to the lowest responsible bidder. The appropriation for construction and machinery is reduced from \$7,670,679 to \$7,370,679.

Millions for Coast Defenses.

Washington, April 10.—The members of the subcommittee of the house appropriations committee, who have been working on the fortifications bill, have been disposed to provide liberally for public works. Today Chairman Hainer of the subcommittee will report the bill to the full committee, and, if it is approved, it may go to the house at once. There is a possibility that the bill will be passed by the house Saturday; if not, it will be called up next week, possibly on Monday. The last bill for fortifications carried about \$2,000,000. This bill will provide for extensive works, and will authorize expenditures of from \$7,000,000 to \$8,000,000.

Labor Men in Washington.

Washington, April 10.—James O'Connell of Chicago, grand master of the International Order of Machinists, and Samuel Gompers, of the American Federation of Labor, on Thursday urged the committee on naval affairs to make an investigation of the treatment of machinists in navy yards. Representative Otey charges that the management of the yards is tyrannical and the system of appointments manipulated so that labor organizations are ill-treated.

Vote to Admit New Mexico.

Washington, April 10.—The house committee on territories has voted in favor of reporting the bill for the admission of New Mexico as a state. The voters stood six for and four against. The Arizona statehood bill was laid aside at the request of Mr. Murphy, the delegate from that territory, who did not desire a vote at this time, and it will probably be taken up at the next session of the committee.

To Increase National Banks.

Washington, April 10.—Representative Van Voorhis of Ohio has reported to the house from the banking and currency committee a bill to permit the organization of national banks with a capital of not less than \$20,000 in cities of 4,000 inhabitants. Under existing law the minimum capital stock required for the organization of a national bank is \$50,000.

Illness of Senator Morgan.

Washington, April 10.—Senator Morgan was not so well Thursday. He had an attack during the night and had not fully recovered by morning. The senator's condition has given rise to various rumors to the effect that his disease is of a critical nature, but members of his household deny that such is the fact.

GUSTAVUS KOERNER DEAD.

Had a Prominent Part in Illinois Politics for Years.

Belleville, Ill., April 10.—Gustavus Koerner, ex-lieutenant-governor of Illinois, died at his home here Thursday morning. He has played a prominent part in Illinois politics. In 1852 Judge Koerner was elected lieutenant-governor of Illinois, serving four years. He was a delegate to the Philadelphia convention of 1856, which nominated Fremont and Dayton. In 1858 he was a member of the state convention which nominated Lincoln for the United States senate; and in 1860 was a delegate for the state at large to the Chicago convention which nominated Abraham Lincoln for the presidency. In 1872 Governor Koerner was named to lead the liberal republican party of Illinois as its candidate for governor. After a brilliant and exciting canvass and campaign he was defeated, though running 16,000 votes ahead of the presidential nominee of the party. After this contest, he turned to his law practice.

Pay Checks May Be Illegal.

Sullivan, Ind., April 10.—The first series of arrests under the United States statutes relating to metal coins and tokens and coupons was made by United States Marshal Hawkins at Linton Thursday. If they hold good it will affect all manufacturers, mine owners and merchants who are using metal checks or tokens or coupon books as a matter of convenience or otherwise. Those arrested include Nathan Dixon of the Summit Coal company and Finney Strong, president of the Linton Supply company. Some of the tokens were confiscated. The two companies alone have nearly \$40,000 in tokens and coupons in circulation.

Claims Money Is Not Taxable.

Indianapolis, Ind., April 10.—Receiver Failey of the Iron Hall has filed suit to enjoin the collection of \$8,526.93 taxes assessed up \$522,847.28 in bank to the credit of the receiver April 1, 1895. Receiver Failey denied the jurisdiction of the board of review of this county in making the assessment, and bases his suit on the proposition that the moneys taxed were simply coming to an officer of the court from other receiverships for distribution to claimants whose claims were before the court for allowance, and therefore not taxable.

SULTAN OF TURKEY MAKES PROMISES

THE MISSIONARIES ARE SAID TO BE SAFER.

Teacher of the Gospel Will Not Be Molested if They "Conform to the Laws of the Country"—No Apprehension Is Felt at Washington.

Constantinople, April 10.—The steps taken in behalf of the missionaries in Asia Minor have had a beneficial effect. The Turkish government, replying to the renewed representations on the subject made by the British ambassador, Sir Philip Currie, and the United States charge d'affaires, Mr. John W. Riddle, has assured the diplomats that the missionaries in Asia Minor will not be molested "so long as they conform with the laws of the country." This assurance does not carry with it the weight which it would coming from any other government, it is claimed, as there is no question that the Turkish officials have been trying to prove that the missionaries are not "conforming with the laws of the country," and it was on this ground that the sultan prepared and probably signed the irade providing for their expulsion from the Turkish dominions.

But the publicity given to the matter in the press dispatches has certainly caused hesitation at the palace, and it is now thought likely that the irade will be withheld, at least until Russia has been further consulted on the subject. If Russia says that the missionaries are not to be expelled the irade will not be made public. On the other hand, if Russia thinks herself strong enough to proceed with the work of Russianizing Asiatic Turkey the irade may soon see the light of day.

WILL SOON BE RELEASED.

No Apprehension at Washington for the Safety of Mr. Knapp.

Washington, April 10.—It can be stated on authority that there is no reason for apprehension that Missionary Knapp will not meet with fair treatment and eventually be permitted to return to his post at Bitlis after he has undergone the forms of clearing himself from the charges that have been lodged against him of conspiracy against the government. Mr. Terrell was explicitly instructed from the beginning of the American troubles by Secretary Olney, from the beginning of Armenian troubles, to offer to try any American citizen charged with insurrection, rebellion, sedition or like offences, or in the event of such offer being refused to demand the release of the accused. So when Mr. Knapp was about to be arrested by the local Turkish authorities at Mitlis and notified Mr. Terrell, the latter promptly addressed himself to the porte, and after much difficulty secured the remission of the trial of the missionary to himself.

France Shows Irritation.

Paris, April 10.—Considerable irritation against Turkey has been aroused here by the reports from Constantinople and London that the sultan has decided to expel all Roman Catholic and Protestant missionaries from Asiatic Turkey on the ground that they have been instrumental in inciting the Armenians to revolt against the authority of the sultan. The newspapers, particularly the Figaro, have taken up the question in earnest, as one directly and strongly affecting Christianity and as calling for prompt and effective action.

Special Session Asked For in Iowa.

Des Moines, Iowa, April 10.—In the senate Thursday Carpenter, of Louisa, introduced a resolution practically asking the governor to call an extra session of the legislature to complete the consideration of the revised code. It will be taken up today, and the impression prevails that it will pass. It is a concurrent resolution, and declares that in the sense of the assembly it is impossible to complete the consideration of the code at this or any other regular session.

No Hope for Imprisoned Miners.

Butte, Mont., April 10.—Up to the latest reports the men imprisoned in the burning Hope mine at Basin had not been reached or heard from and their friends are certain now not one is alive. All Wednesday night the entire population of Basin worked unceasingly and resorted to every known means to get air down to the entombed miners. After the timbers commenced to fall hopes of ever being able to save the men was given up.

May Abandon the Nile Campaign.

Cairo, Egypt, April 10.—From indications here it is thought that the plan of pushing the Anglo-Egyptian army direct to Dongola has been suddenly abandoned. It has been found, it is thought, that the force of the Nile is too weak to cope with the hordes of dervishes now in the field and gathering to the khalifa's flag between Akisheh and Dongola. It is not probable now that any attempt will be made to advance beyond the former point at present.

TICKET IS NAMED BY THE "PROHIBS"

PROHIBITIONISTS OF ILLINOIS NOMINATE.

Hale Johnson Will Make the Run for Governor—Candidate for United States Senator Is Also Named—General News of the Political World.

Springfield, Ill., April 10.—The prohibition state convention opened on Thursday morning at 8 o'clock with prayer by the Rev. D. Evans, president of Hedding college. At once a delegate moved that the committee on platform be instructed to take the platform that had been voted upon and report in its place one containing only a straight prohibition plank. The proposition was promptly sent to the table, and then the convention proceeded to nominate candidates. On a call of districts, Dr. Evans of Abingdon, C. A. Windle of Fairplay, Robert H. Patton of Springfield, Hale Johnson of Newton, E. S. Wells of Lake Forest, and Oliver W. Stewart of Mackinaw were named for governor.

The last-named candidate declined the nomination on the ground that he was too young to be eligible. All of the other candidates, except Hale Johnson, withdrew, and he was nominated by acclamation. The ticket was then completed, as follows: For governor, Hale Johnson; for lieutenant-governor, C. A. Windle; for secretary of state, Alonzo E. Wilson; for auditor of public accounts, H. J. Besset; for treasurer, E. K. Hayes; for attorney-general, Robert H. Patton; trustees University Illinois, Miss Lucy Page Gaston, Miss Carrie L. Grout and Mrs. Ella M. Orr; for United States senator, D. R. Sheen.

Mrs. Metzger, of Moline, was added to the state central committee as a member-at-large.

Miss Lucy Page Gaston briefly addressed the convention, and a collection of \$50 was taken up to assist in paying the expenses of her trial for libel at the instance of a Harvey saloonkeeper.

The members of the state executive committee are: George W. Gere, chairman, Champaign; J. H. Shaw, secretary, Chicago; J. B. Hobbs, treasurer, Chicago; D. R. Sheen, Peoria; A. E. Wilson, Chicago; James S. Felter, Springfield; Hale Johnson, Newton. The members of the national committee from Illinois are: Oliver W. Stewart, Mackinaw, and C. F. Whipple, Rockford. The convention adjourned at noon.

ILLINOIS CONVENTIONS.

Three Counties Instruct for McKinley—Democrats Instruct for Altgeld.

Champaign, Ill., April 10.—The Champaign county Republican convention instructed its state delegation for McKinley for president, Tanner for governor and J. S. McCullough of this county for state auditor.

Jacksonville, Ill., April 10.—At the Republican county convention McKinley and Tanner were unanimously endorsed and the delegates instructed for them, as well as for T. S. Chapman of Jerseyville for lieutenant governor, Gen. Rinaker for congress and Charles S. Rannels for member of the state central committee. William E. Mason was recommended for the United States senate.

Dixon, Ill., April 10.—The Republican county convention was all McKinley and instructions for him carried without opposition.

Newton, Ill., April 10.—The Jasper county Democratic central committee endorsed the administration of Gov. Altgeld, selected delegates to the Nineteenth district convention and instructed them to vote for S. F. Gilmore for congress and Ira J. Bell for member of the state board of equalization.

MISSOURI FOR FREE SILVER.

Results of Primaries at St. Louis and Kansas City.

St. Louis, Mo., April 10.—A heavy vote was cast at the Democratic primaries held in St. Louis Thursday for the election of delegates to the state convention at Sedalia, which in turn will elect delegates to the national convention to be held in Chicago. As a result of the primaries the "sound money" men elected solid delegations in three wards. In three other wards were elected delegates of both persuasions, while the remainder of the twenty-eight wards went solid for "free silver."

Kansas City, Mo., April 10.—The results of Thursday's primaries indicate that the county convention will be overwhelmingly in favor of free silver.

OREGON DEMOCRATS.

Delegates to Chicago Instructed to Vote for a Free-Silver Candidate.

Portland, Ore., April 10.—The democratic state convention met Thursday. The committee on platform presented a majority and minority report on the financial plank. The majority report favored the free and unlimited coinage of silver at the ratio of 16 to 1, while the minority report simply indorsed the democratic national platform of 1892. After a discussion of three hours the majority report was adopted. The delegates elected to the national convention are instructed to support a candidate in favor of the free and unlimited coinage of silver at the ratio of

16 to 1. The platform denounces the A. P. A. movement, favors a tariff for revenue only, the rigid enforcement of the Monroe doctrine and the construction of the Nicaragua canal by the general government. The vote on the adoption of the platform was 152 to 91.

Mayor Taggart Refuses to Run.

Indianapolis, Ind., April 10.—Mayor Taggart, of this city, has announced positively that he will not be a candidate for the nomination of governor. "If the convention should nominate me I should decline," said he. "I am fixed in my determination in this matter, and no amount of argument can change my purpose. I was elected mayor of Indianapolis for two years, and it would be unfair to the people who elected me to resign that office to be a candidate for another."

Wants No Religion in the Campaign.

Cleveland, Ohio, April 10.—M. A. Hanna announced yesterday that he would not be guilty of making religious alliances in order to gain the nomination of McKinley and for that reason he would pay no attention to the reported repudiation of McKinley by the A. P. A.

Named by Fort Wayne Democrats.

Fort Wayne, Ind., April 10.—Henry P. Scherer was nominated for mayor by Fort Wayne democrats Thursday at a big convention. The Evening Sentinel (democratic) editorially declares its opposition to Mr. Scherer.

More Kentucky Delegates for McKinley.

Falmouth, Ky., April 10.—W. McD. Shaw of Covington and C. Valandingham of Williamstown were elected delegates from the Sixth district to the St. Louis convention and instructed for McKinley.

WILL ACT AT ONCE.

President Cleveland Will Soon Define His Cuban Policy.

Washington, April 10.—The tone of foreign dispatches keeps interest in the Cuban question keenly alive in Washington. The question of what the president is going to do and when he is going to do it has become of greater importance from a commercial than from a political standpoint, and that phase of the case will become more pronounced until an authoritative statement on the question is made.

According to a report in cabinet circles the president proposes to adopt a positive course. He contemplates sending to the Spanish government during the next few days a formal note in which the whole question will be fairly discussed and the attitude of the United States described. The president wishes Spain to understand that the United States appears as a friend of both sides and that its sole desire is to arrange honorable terms of peace and to prevent further bloodshed and destruction of property. In this note it is expected the president will make it plain to the Spanish ministry that the United States has a duty to perform in the premises and that the frightful and apparently useless war in Cuba cannot be permitted to go on indefinitely. There is some reason for hope that the Spanish government will listen to reason and express a willingness to accept the good offices of the United States.

Armour Gives Up the Fight.

Pittsburg, Pa., April 10.—The war of extermination against oleomargarine made in Chicago, which has been going on in Pennsylvania for years, will end on April 15. On that date the pure food commissioners have been notified the sale of oleomargarine will cease. Armour & Co. and other makers have sent notices to all their supply houses that no more will be sold, and if the dealers have any on hand it will be taken back. The suits against the Armour people were piling up until they decided it was cheaper to quit. It is said that an effort will be made to change the law at the next session of the legislature.

Look for Activity in Mining.

Zanesville, O., April 10.—O. F. McKinney, president of the Zanesville Coal company, received a communication yesterday from Secretary Brooks of the Ohio Coal Operators' association, conveying the important information that it had been decided to accept the 61-cent rate for mining in Ohio, and directing the operators to resume operations at this price. The miners are satisfied with this price, and the indications are that there will be a general resumption of work in Ohio mines. Operators claim that the prospects are very bright for an immense lake trade, which will open this month.

Appeal in Hinshaw Case.

Indianapolis, Ind., April 10.—The attorneys for the Rev. William E. Hinshaw, who is serving a life term for the murder of his wife at Belleville, have written an eighty-two page brief in their appeal to the supreme court for a reversal of the judgment of the trial court. The supreme court will take up the case immediately. Warden Hert, of the southern prison, says the minister is a model prisoner. He preaches to his fellow-prisoners every Sunday. He believes he will eventually be a free man.

Ohio Will Discard the Rope.

Columbus, Ohio, April 10.—The state of Ohio, on and after July 1, will inflict capital punishment by electricity, the bill passing Thursday. Next fall election the people are to vote upon the question of having a constitutional convention.

WISCONSIN MILLERS FORM A TRUST

BADGER FLOUR MAKERS ARE IN A POOL.

One Man Will Do All the Buying, Thus Cutting Off Competition, and the Members All Pay the Same Price—A Pardon for Mark Barnum.

Milwaukee, Wis., April 10.—It is reported that the millers have perfected their trust by making an agreement whereby one man is to do all the buying for them. This shuts off competition between the millers, and, it is said, places the holder of the wheat at their mercy. The price is fixed for the day and when the buying is over the wheat is to be divided among the millers, all paying the same price for it.

Pardon for a Wisconsin Editor.

Madison, Wis., April 10.—On good authority it is announced that Governor Upham has pardoned Mark H. Barnum, formerly editor of the Wausau Torch of Liberty, who was convicted of libeling Ella Maley, by the publication of the alleged Minnie Braddock story of the Rose Zoldoski case, which reflected on the dead girl's morality.

BIG SHIP GLEES OVER.

British Steamer Blairmore Is Capized While at Anchor.

San Francisco, Cal., April 10.—While riding at anchor in Mission bay Thursday the British ship Blairmore was struck by a violent squall, which, together with the swift flood tide, threw the craft on her starboard side, capsizing her completely and sinking her in less than fifteen minutes. Fifteen seamen struggled in the water. Six were confined in the hold, and were probably pinned down by the falling tonnage used to hold the ship's ballast in place. The imprisoned men never reached the deck, as did their comrades engaged with them in handling the ballast below, and the bodies of the six are imprisoned in the steel hull. The unfortunate men who lost their lives were: T. LUDWIG, first mate. HENRY CLARK, seaman. ROLAND SIEGEL, apprentice. G. REINBAUM, seaman. H. SINSTRAND, watchman. WILLIAM KERRY, the steward.

TELLS OF THE MURDER.

Confession of Romulus Costell, the Slayer of Alvin Stone and Others.

Akron, O., April 10.—Romulus Costell, alias John Smith, arrested for the murder of Alva and Mrs. Stone and Ira Stillson, their nephew, has made a full confession. After fracturing the skulls of his victims, he disfigured the bodies with a pocket-knife. Malice prompted the crime, he says, for he was enraged that Stone had discharged him without paying him in full. It is known, however, that he intended to kidnap Flora Stone, the youngest daughter. Smith said he felt better after he had confessed. There was not a tremor in his voice while he recited the details of murder. Smith is but 17 years old, and says he left home in Turin, N. Y., five months ago because of trouble with his father.

Whitney and Cleveland to Confer.

Washington, April 10.—President Cleveland and ex-Secretary Whitney will have a conference soon. It is understood they will discuss the political situation. This conference, in all probability, will have an important bearing upon the coming campaign. The statement is made with a good deal of positiveness by gentlemen familiar with the facts that Mr. Cleveland is anxious to have Mr. Whitney become a candidate for the nomination to be made at Chicago, and that he would be glad, in case Mr. Whitney indicates a willingness to accept, to come out with a declaration that under no circumstances will he accept a nomination for a third term. So far as can be learned Mr. Whitney does not want the nomination, and is likely to tell the president so frankly.

Bastian Inquest to Be Renewed.

Rock Island, Ill., April 10.—A phase has developed in the Bastian case which may lead to disclosures bearing more directly on the methods of the many-sided murder. Robert Kuschmann of this city, uncle of Fred Kuschmann, the last of Bastian's victims, petitioned the coroner for a reopening of the inquest, at which a verdict of accidental death was reached. The object is to reach a verdict in accordance with facts now to be presented, and in providing those facts to bring to the stand a witness who is suspected of knowing Bastian's crimes.

Window Glass to Go Higher.

Pittsburg, Pa., April 10.—Thursday the manufacturers of window glass returned from Cincinnati, where they held a secret meeting and decided to advance prices. The figures will not be known until after a meeting in Indianapolis next Tuesday. In all probability an advance will be about 7 per cent, and will go into effect between April 15 and May 1.

Co-Operative Congress.

Topeka, Kas., April 10.—About fifty men and women met here Thursday to organize a state co-operative congress. The meeting was presided over by Joel Reece, state lecturer of the Kansas Farmers' alliance.

### DISPATCHES COMMENT ON F. A. HUMPHREY'S DEATH.

English People Learned of the Oldest Mason's Death with Interest, and Now Think the Oldest Mason in the World Lives at the British Capital.

News travels rapidly and penetrates every corner of the globe. For instance, the Janesville correspondents of the Associated Press and the United Press telegraphed the fact of the death of Frederick A. Humphrey of Shopiere, to the office of the central division of these two great news-gathering agencies at Chicago. From there the dispatches went broadcast over the world and the echo comes in the following Associated Press telegram from the English capital.

"London, April 8.—A press telegram from United States recording the death in Janesville, Wis., of Frederick A. Humphrey, the oldest member of the masonic order in the United States, has caused something more than a passing interest from the fact that a committee of representative masons of all parts of the country is now being organized to present a testimonial to Dr. William Salmon, of Glamorganshire, Wales, who it is claimed, is the oldest free mason in the world. Dr. Salmon last week celebrated his 107th birthday and has been a mason for 85 years. He has not been outside the grounds of his house, however, since his 100th birthday and quit smoking when he was 90. He sleeps fifteen hours out of the twenty four and for 70 years has taken two glasses of wine with his 6 o'clock dinners. His eldest daughter, who is eighty years old, keeps house for him. He has been a magistrate of the county for 70 years and occasionally presides over court in the library of his residence."

THEY GAVE A FINE PERFORMANCE

Kimball Opera Company Pleased a Janesville Audience Last Night.

The Kimball Opera Company presented "Hendrick Hudson Jr." at the Myers Grand last night, and delighted a large audience. As Manager Stoddard had requested The Gazette to state before the performance, Corrine did not appear, but the production was eminently successful without the star. The manager made the announcement from the stage that Corrine was to ill to take part, and stated that Manager Stoddard would return the money to all who were dissatisfied. But two people left, and both afterward bought gallery tickets.

The performance was excessively funny and the musical features and specialties were all good. The costumes and scenic effects were elaborate. Encores were accorded all the performers, and the audience was enthusiastic in its applause.

Manager Stoddard is to be commended for stating the exact circumstances, in order that none should be misled. His patrons, he says, will always be protected first, even if he has to cancel contracts that are not filled unless due reparation is made.

THOUSANDS OF WOODMEN COMING

The Rockford camp is said to be the largest one in this part of the country, and it took three trains last summer to carry them to Madison. The Elgin camp has a thousand members.

The local committees are much encouraged by the outlook. Many answers to the circulars sent out are being received, and nearly all the camps will send delegates to next week's preliminary meeting.

What is a "Quick Meal" Stove?

It is a solid, but light, pretty contrivance, fed with gasoline, instead of coal or wood, and is especially invented for ladies who want to do their cooking comfortably in summer time in a cool kitchen. They are made of wrought steel; tops nicely japanned and handsomely ornamented with a fine nickel-plated front. Raised several feet above the top is a reservoir holding about a gallon of gasoline, which flows through a pipe to the burners under the stove top. Gasoline stoves have been condemned by some people on general principles, because they happened to buy one of poor and cheap construction; but the "Quick Meal" is safe and a perfect boon to mankind.

JOHN DAY HONORED BY PUPILS  
High School Scholars Adopt Resolutions at Their Last Meeting.

At a meeting of the class of '94 of the Janesville High school, the following resolutions on the death of John F. Day were adopted:

WHEREAS, The great Ruler of the universe has in His infinite wisdom seen fit to remove from our midst our classmate, John F. Day, in deep sorrow we realize the loss of one who has been to us a friend, indeed, an honor to his school and to his home; and

HEREAS, During the close companionship of our school life he had endeared himself to every member of this class; therefore, be it

RESOLVED, That in the death of John F. Day a bright and noble spirit has gone from amongst us, that we, his classmates, have lost one of our most talented members, his kindred and friends a loving and beloved companion, and to his sorrowing parents the loss is too deep and irreparable for expression.

RESOLVED, That the heartfelt sympathy of the class of '94 be tendered to the bereaved parents and friends of our classmate.

RESOLVED, That these resolutions be kept in the records of the class and that a copy of them be sent to the parents of our deceased friend and to the daily papers.

**THIN PEOPLE.**  
How the Weight May be Increased in a Healthful Natural Manner.

All people who are thin are not necessarily so from disease. It is natural for some to be thin, and no amount of treatment would add an iota to their weight, but the great majority of people are thin because their digestion is not perfect, their stomachs do not thoroughly digest flesh-forming foods, they may not have chronic dyspepsia, but their digestion is not vigorous enough to assimilate the food necessary for robust health and to keep up their weight.

For all such, the new discovery for dyspepsia and digestion comes as a most welcome addition to the list of meritorious remedies. The new discovery referred to is Stuart's Dyspeptic Tablets, which is not only a pleasant and certain cure for indigestion, but possesses the peculiar power of digesting flesh-forming foods, like meat, eggs and similar ordinary foods, so that the increase in weight is a perfectly natural process. One grain of the digestive principle in Stuart's Dyspeptic Tablets will digest 3,000 grains of flesh-forming food. Dr. Jenkinson recently stated that he depends altogether upon these tablets for the cure of dyspepsia and stomach troubles and that they not only cure the indigestion, but in every case a gratifying increase in weight was noticed, not fat, but the proper amount of flesh for health and symmetry. Dr. Harlandson speaks highly of the tablets, not only because they build up flesh and cure indigestion, but they are absolutely safe and harmless, no matter what the condition of the stomach and are excellent not only for the ordinary dyspeptic, but for invalids and children.

Stuart's Dyspeptic Tablets are sold by all druggists at 50c. per package and a trial will convince anyone of their merits.

JANESVILLE'S SPRING TRADE.

Money is scarce in Rock county this spring. Merchants know this, and know they must offer substantial inducements to get trade. Janesville and Beloit have suffered because of the mistaken belief that small stores in the villages can name lower prices even though a smaller variety be offered. As a matter of fact, Janesville stores offer bargains every week that no village store can afford.

No extra inducement, therefore need be offered.

Janesville stores already lead the county.

The essential point is that the bargains offered from week to week be announced, not to Janesville people alone—they might find out for themselves—but to people in all the country tributary to Janesville. The publishing of trade inducements is the best possible "boom" work for any city. The advertisements sent out in Chicago Sunday papers bring millions of dollars to Chicago. Announcements of dry goods and grocery bargains, made each week through a paper circulating as generally in Rock, Green, Walworth and Jefferson counties as The Weekly Gazette with its 3,800 copies, can work incalculable benefit for Janesville if honest bargains are offered and all promises are fulfilled.

MRS. DUDLEY'S LETTER.

Marion V. Dudley's letter in the Gazette Wednesday night suggests the comment that whatever may have been the merits of Mrs. Dudley's own case three years ago, it is generally admitted that no state in the union provides better care, more wholesome food and kinder treatment to the unfortunate classes, than does the state of Wisconsin. The inmate of an asylum is hardly competent to judge as to the best methods of care and treatment. In the last year the state board of control have had charge of all state and county institutions. They are not only thoroughly familiar with the management, but they demand the best treatment and most considerate care. Twenty-two counties in the state have county insane asylums. They are well equipped and well managed. The Rock county asylum is a fair sample of these institutions. They will bear inspection any day, and the general verdict is always commendatory.

Mr. Wright's report, referred to by Mrs. Dudley, is fair and impartial. No effort is made to conceal facts, but every effort is made to place before the public an intelligent showing of how money is expended, and what results are accomplished.

The state board as well as Mr. Wright, are anxious that the citizens and tax payers of the state shall become thoroughly familiar with state institutions, and intelligent inspection is invited at all times.

Tremendous republican majorities throughout the state satisfy the Milwaukee Journal that the republican party is losing its grip. What words will it find to express the deplorable condition of the republican party when three-quarters of all the states in the Union swing in line for McKinley next fall?

This is a good time of year for aldermen to adopt new resolutions—the January 1 crop is out of date by this time. Let one of the resolutions be to repair streets hereafter so they will stay repaired at least until after the first rain storm.

Rock county farmers are alive to the need of a better system of title registry. Without a dissenting voice Pomona Graoge declared for the Torrens plan now in successful operation in Illinois.

Pingree's Boom Is Growing.

Detroit, Mich., April 10.—The interest which Mayor Pingree's tour in the northern part of the state seems to have aroused has made its effect felt here, and Albert Pack will manage Pingree's campaign all over the state. He will be assisted in his fight by Land Commissioner William A. French. With Pack and French in control Pingree's campaign will receive a boom.

## A RAILWAY CHANGE IS "IN THE AIR."

JANESVILLE MAY SUFFER BY  
C. & N. W. CO'S MOVE.

Fond du Lac People Claim That City  
Will Be Made the "Division End"  
Local Men Doubt the Story, But  
Admit That a Change Is Likely  
To Be Made.

Janesville may soon cease to be the  
division end of the Chicago & North-  
western railway, which will mean a  
considerable loss to the city. Fond  
du Lac people are claiming to have it  
on the best of authority, that of the  
general superintendent of the system,  
that Fond du Lac is to be the only  
division headquarters of the system  
between Chicago and Menominee, and  
also Chicago and Elroy, as soon as a  
direct line to that city is built.

While Janesville railroad men are  
inclined to doubt this statement, they  
are free to admit that "something is  
in the air," and they may be com-  
pelled to move away from Janesville  
almost any day.

The proposed plan it is said, con-  
templates the abandonment of the  
present division headquarters at Janes-  
ville and Oshkosh and possibly Mil-  
waukee. A fact which tends to give  
color to the project is the appearance  
of six great mogul engines at Fond du  
Lac, that are intended to cover 150  
miles in rapid order. It has pre-  
viously been the plan to change en-  
gines midway between Chicago and  
Fond du Lac. This story goes with  
one which has been in the air for  
months to the effect that large new  
round houses will be established  
at that city. Further talk is that  
Princeton and Elroy are to be connected  
in furtherance of the old plan to con-  
nect Princeton and Necedah.

The company has recently ordered  
fifteen new engines, ten for freight  
service and five for switching. Seven  
hundred new cars have also been or-  
dered, five hundred and fifty of them  
for freight work and the balance  
"refrigerator cars."

J. W. BATES IS AFTER MILLIONS  
However, No Such Estate as the One He  
Seeks Is in Existence.

J. W. Bates, who is spending some  
time in Utica, New York, looking into  
the matter of what is called the  
"Kronkheit estate"—an estate said to  
be valued at \$4,000,000 held by the  
Holland government in trust for such  
heirs as shall be living one hundred  
years after the death of the testator,  
sends copies of the Utica papers to The  
Gazette. Mr. Bates is the agent of a  
number of persons who claim to be  
such heirs.

It counts for nothing, of course, that  
an American Consul now in Holland  
sends word that the Holland govern-  
ment knows nothing at all of a  
"Kronkheit" estate, and is not hold-  
ing \$4,000,000 or any other sum for  
distribution to Americans of Dutch  
descent.

## NO BETTER MILL IN THE COUNTRY

J. M. SHACKLETON'S MODEL  
FLOURING PLANT.

Collector for the Millers' Insurance  
Company Says a More Complete  
Outfit Cannot Be Found in the  
United States—Will Use the Hod-  
son Brands.

Probably few people in Janesville  
know that the Bower City contains as  
complete, well built, and finely  
equipped flouring mill as there is in the  
United States.

But we have it.

To be sure, there are larger mills in  
the country, but none of them are bet-  
ter equipped in any way. This is the  
statement made by Mr. Edmunds, col-  
lector for the Millers' National Insur-  
ance Company, who was in Janesville  
a few days ago. J. M. Shackleton is  
the owner of this model plant. He  
bought the mill, as will be well re-  
membered from Mrs. C. W. Hodson.  
Mr. Rodson fitted the building with

the best and most modern machinery  
at an enormous expenditure and  
the present proprietor has added a  
great deal more to it so that today it  
is an enterprise the city should well  
feel proud of.

The building has four floors and a  
basement beside a warehouse 100x48  
feet. The basement contains the  
main shafting and gearing and the  
four floors are taken up with Stevens  
grain roller machines, Smith purifiers,  
tubular air purifiers, Smith flour  
bolting machines and grain dressers,  
cleansers and separators and all the  
very latest apparatus known to mod-  
ern milling. Mr. Hodson equipped  
the mill with an eye to com-  
pleteness in every detail. The  
warehouse is used in putting flour into  
bags and for storage. The capacity  
of the entire plant is three hundred  
barrels a day and as Mr.  
Shackleton said to a reporter  
yesterday he is in position to make  
the Pearl White, Patent and Vienna  
brands of flour—those which Mr. Hod-  
son manufactured successfully for so  
many years—as good if not better  
than they ever were. William Koch,  
who has been foreman of the mill for  
years, is in charge and is a thoroughly  
competent man.

Mr. Shackleton has made arrange-  
ments with several grocers in the  
city to handle his flour and for the  
benefit of those who cannot get it at  
their trading places, flour will be re-  
tailled at the mill.

### DO NOT TRIM A POSTAL CARD

By Cutting Off the Corners or Edges You  
Invalidate It.

It doesn't pay to mutilate postal  
cards. Uncle Sam is very proud of the  
pasteboards he has issued and doesn't  
take kindly when anyone tries to im-  
prove on them. Many people clip the  
corners or cut slices off the cards to  
make them smaller, and sometimes  
when enclosing a card for a reply in  
an envelope which is too small they  
make it fit by the deft use of scissors.

This, according to a ruling of the  
postal department, invalidates a card.  
It is not held up or sent to the dead  
letter office, but the person to whom it  
is addressed can only secure it upon  
the payment of one cent to the  
carrier.

### BON AMI CLUB ENTERTAINED

C. D. Stevens' Home.

and entertained their gentlemen  
friends. The house was handsomely  
decorated and the affair was a com-  
plete surprise on Mr. Stevens. Sup-  
per was served at 6:30 o'clock and  
card playing occupied the balance of  
the evening. Those present were:

Messrs. and Mesdames—  
F. H. Baack, W. J. Skelly,  
E. C. Johnson, G. S. Parker,  
C. D. Stevens, E. B. Helmsstreet,

Dress Gingham at 4 3-4 Cents.

not an old one in the lot. They are  
all standard makes, Renfrew, Amos-  
keag and Toll-de-nord, and at 4½ cents,  
are the greatest gingham bargains ever  
offered in Janesville. Bort, Bailey &  
Co.

Carpets at 45 Cents.

When you have an opportunity of  
buying the finest wool ingrain carpets  
made for 45 cents a yard, which is not  
every day, isn't it a wise plan to take  
advantage of the prices. Bort, Bailey  
& Co.

## LAD LIED AND STOLE AT THE SAME TIME

HERMAN KOEPFLIN IS A WAY-  
WARD YOUTH.

When He Helped Make Way with a  
Watch, He Also Broke His Word  
of Honor—Goes Back to Waukesha  
—Other Police and Court Happen-  
ings.

Although Herman Koepflin is but  
seventeen years of age, he seems to  
be fully acquainted with the broad  
highway that leads to jail—and some-  
thing worse.

Koepflin is one of the lads who was  
sent to jail for stealing a watch be-  
longing to G. G. Goulson, of Orford-  
ville. He claimed to hail from Bel-  
oit, but in the future his postoffice  
address will be "Waukesha, Wis., care  
of J. Hart, superintendent."

The Waukesha authorities heard of  
Koepflin's arrest and upon investi-  
gating the matter found that he was  
one of the boys who had recently  
been released from the reform school  
on parole. This morning when the  
lad heard that Waukesha authorities  
were coming for him, he admitted that  
he had been to the school. Superin-  
tendent Judson Hart arrived this  
morning and took Koepflin back with  
him on the 10:15 o'clock train much to  
the dislike of the boy. He will now  
have to remain at Waukesha until he  
attains his majority. His partner,  
Henry Sharp, is still in jail.

A complaint was made in the munici-  
pal court by Officer J. W. Hogan this  
morning against the "Janesville bow-  
ling alley" owned and controlled by  
James Toole. There is a city ordi-  
nance against the keeping open of all  
bowling alleys, shooting galleries and  
all such places after eleven o'clock at  
night, the police say, and the com-  
plaint states that Mr. Toole has disre-  
garded the ordinance.

C. L. Burnham, of Edgerton, as  
guardian of John F. Hudson, of the  
same city, began action to recover  
damage yesterday from Samuel Rosen-  
feld, the clothier, as to the result of  
the trouble that caused Mr. Rosen-  
feld's arrest. William Smith represent-  
ed Hudson, and Rosenfeld compromised  
by paying twenty-five dollars to the  
latter.

MR. O. BAKER came into our store  
with chisel and mallet this morning.  
He said, to cut down prices, but when  
he left, he remarked, "Your prices  
are the best on earth for same grade of  
goods." He wore out a pair of \$3  
shoes bought of Brown Bros. & Lin-  
coln.

**Peaceful Acquisition.**  
A lawyer gave a dinner party, after which the gentlemen retired to the smoking-room for a weed and a chat. Suddenly the host got up, took down a sword which hung in a trophy, and, brandishing it in the air, exclaimed: "Ah, gentlemen, I shall never forget the day when I drew this blade for the first time."  
"Pray, where did you draw it?" asked an eager guest.  
"At a raffle," was the lawyer's rejoinder.—Pearson's Weekly.

"Why, so it is," she answered, in surprise. "I thought it was a dialect story."—Washington Star.

## WRONG & RIGHT EATING.

**One Makes Us Weak; The Other Makes Us Strong.**

Wrong eating makes us weak, because it doesn't nourish us. It poisons us, because it sets up poisonous fermentation in our stomach and the poisons go into our blood.  
Wrong eating is eating indigestible food, or eating more than our stomach is able to digest.  
Right eating is eating digestible food, food that the stomach is able to digest, food that will nourish you when it is digested.

Right eating strengthens and invigorates the body, gives endurance, increases weight and restores health.

Wrong eating can be made right by taking the Shaker Digestive Cordial. This preparation, made by the Shakers from simple herbs, roots and wine, is delicious, refreshing and strengthening to the body. It is a powerful aid to digestion.

It does not act by strongly stimulating the stomach, but with its own digestive ferments acts on the food in the stomach, and reduces, instead of increasing, the work which the stomach has to do.

This is why it increases your strength, why it will cure you of all the bad effects of indigestion and of insufficient nourishment, and purifies your system of all dangerous indigestive poisons, when nothing else has been found to relieve you.

At druggists. Ten cents for a trial bottle.

## TEN DOLLAR BILL FOR THE BEST AD

GAZETTE'S APRIL OFFER TO  
ITS FRIENDS.

The Person Who Comes Nearest to  
Picking Out the Best Ad From The  
Gazette Each Day in April Will  
Be Presented With a Crisp Green-  
back.

A ten dollar bill—crisp and fresh—  
hangs in a frame, in the Gazette office.  
What is it for?

Just this.

In every issue of The Gazette there  
appear a good many pretty good ads  
and a good many pretty poor ones.

The good ones bring profit to the  
advertiser and cause his face to be  
wreathed with smiles.

The poor ads cost just as much, but  
produce less result, and induce a loss  
of faith in the value of advertising.

This is all wrong!

We want more GOOD advertise-  
ments.

The way to make a good advertise-  
ment is to try to make a good one—  
try hard.

To encourage good advertising The  
Gazette inaugurates this friendly con-  
test.

The \$10 bill goes to the reader who  
selects the best display ads that ap-  
pear in The Gazette during April—one  
each day.

These are the conditions:

One display ad. is to be clipped from each  
issue of the Daily Gazette for April and marked  
with voter's name and the date of issue.

The bunch of advertisements—one from each  
issue in April—are to be mailed to the Gazette  
before 6 p. m. Saturday, May 2.

Voters may prepare more than one list if they  
choose.

The best ad. for each day will be determined  
by counting the ballots sent in at the end of the  
month. No ad. is to appear twice in one list.

The contest is confined to display ads—not  
reading notices or locals. Janesville ads only.

Size, the typographical beauty and verbal  
cleverness are not the essential qualities. The  
"best ad" under the terms of this contest, is  
the one that seems likely to draw the most busi-  
ness. No matter if the wording be clumsy and  
the typography poor, the ad. that brings re-  
sults, is the best ad. of the world.

The ad. that makes a hundred people say  
"That's a fine ad" is good, but the ad. that makes  
a dozen people buy, is better.

Read these conditions carefully, sub-  
scribers and non-subscribers, and get  
your scissors ready.

THE OLD NEWFOUNDLAND.

Now It Has Political Degeneracy and  
Much Distress.

Newfoundland (or Newland, as it is  
called in a statute of Henry VIII) is a  
very different place from the foggy, ice-  
bound land which most people imagine it.  
It is further south in latitude than  
Great Britain, it is no land for fog and  
the summers are delightful, says the  
Westminster Review.

It is true that the winters are long  
and severe, for there is no gulf stream  
to temper the ocean; but even in the  
winter the sun shines brilliantly—the  
fogs in which the prevalent idea en-  
velops the island are really far out at  
sea. May is the most unpleasant  
month, for ten and twelve feet of snow-  
drift and four and five feet of ice must  
be got rid of somehow; so Newfoundland  
becomes a world of slush and misery.  
Then June is too often bleak and  
biting. But before it is over what a  
delightful change has come! And it  
comes with some certainty; there is  
rarely the disappointment which an  
English summer brings. We have en-  
joyed nothing better than the firewoods  
of Avalon in the summer, their cran-  
berries and hurts and wild raspberries  
—and the globe, flowers and pitcher  
plants and Linnaea borealis in the  
marshes. The country has a character  
of its own, yet ever and again it recalls  
old England more perhaps than any  
other part of the earth. There is a good  
deal of Devonshire in yon old farm  
which was settled years ago by Devon-  
shire men; Croker's river is much like  
a Yorkshire trout stream and the pools  
in the early July evening show much  
the same insect life. But on the banks  
of the rivers bloom the calmia and  
azalea and the still water far down  
amid the forests of pine and fir has a  
vastness and solitude which we do not  
see over here.

What delightful trout fishing there is,  
too! How free they come! Only the  
mosquitoes and sand flies are certainly  
a drawback. And what a paradise for  
picnics! Over the high ground to Top-  
sail cove and to Portagal cove and Tor-  
bay and Flat Rock. They were no  
mean picnics in the old days, when the  
whole community seemed to turn out  
and drive off to the rendezvous in a  
continuous stream. For round about  
the '60's the island was prosperous and  
the presence of the military gave life  
and tone to society. A quarter of a  
century has wrought a change; the re-  
moval of the troops was certainly a  
loss; thought of the island moved in a  
narrow circle; it lost touch with the  
outside world and gradually selfishness  
and corruption have wrought the fail-  
ure of responsible government. The  
present distress of the Newfoundland  
fishermen is due partly to economic  
causes, in some measure to the diffi-  
culty of the French shore, but very  
largely to that state of political degeneracy  
which made it possible for the  
supreme court a year ago to unseat a  
whole ministry on petition.

NOLAN BROTHERS - Next Grand Hotel.

Sign of Advancing Age.  
Baltimore Herald: An unmistakable  
evidence of passing youth in a woman  
is attention to those a trifle older than  
herself. It matters not how infinites-  
imal the trifle may be—indeed, the less  
it is the more evident are the attentions.  
The passing youth is, also, that much  
more evident. Whoever saw a young  
woman of eighteen pretending she  
wasn't tired when she was, and insist-  
ing upon a woman of twenty being  
made comfortable at her expense? As  
she gets "on" in years, however, it's  
astonishing how her courtesy and alac-  
rity in such matters are developed. She  
can't do too much for the woman a bit  
older than herself, and with what a  
gladsome, virtuous air does she do it,  
too. So universal is the trait among  
women that it has become an unmis-  
takable evidence of passing youth.

## The rainbow has a rival==

---in the new spring millinery for the  
season of 1896. The line is not  
drawn and color seems to run riot,  
so do not be surprised when you  
see the staid matrons and mothers  
with headgear likened into a mini-  
ature flower garden, for fashion  
demands it and so it will be. Ap-  
ril marks the opening of the mil-  
linery season and more varied or  
prettier styles were never before  
shown than is the rule today.

The leading millinery houses of  
America have been drawn upon  
for this department, and the show-  
ing is a most complete one, with  
many novelties which are confined  
exclusively to us.

A half hundred Pattern Hats adds to the  
attractiveness of Janesville's leading millinery  
display, and, as always, new ideas will be first  
seen here. The splendid business with which  
this department is favored simply adds force  
to our claim that up-to-date millinery at pop-  
ular prices is a winner.

# Second Great Lot Of Gingham's !

4 3=4c——4 3=4c.

This is the second great lot of GINGHAMS that we offer you. The first lot of several thousand yards lasted just three days. We have now got about 6,000 yards more of them, and they are handsomer, finer and in all ways better Gingham's than our competitors are selling you under the excuse of forced sale at 6 cents.

## We Want You To Understand Just What These Goods Are.

They comprise Amoskeag Fancy Styles of Dress Gingham's.

They comprise " Toile de Nord " "

They comprise Renfrew Standard Fancy " Styles.

∴ GOLD . DOLLARS . FOR . FIFTY . CENTS ! ∴

If we should advertise to sell gold dollars for fifty cents and you should see a window full of them. How many of them would you take? Well, these Gingham's at 4 $\frac{3}{4}$ c per yard are as good values as gold dollars at 50 cents. Notice our east window full of these beautiful fabrics. Do yourself the justice of comparing our goods and prices on these gingham's with other firms' goods and we will stand by your verdict.

.....PRINTS, MUSLINS, SHEETINGS, BROWN COTTONS, CARPETS,.....

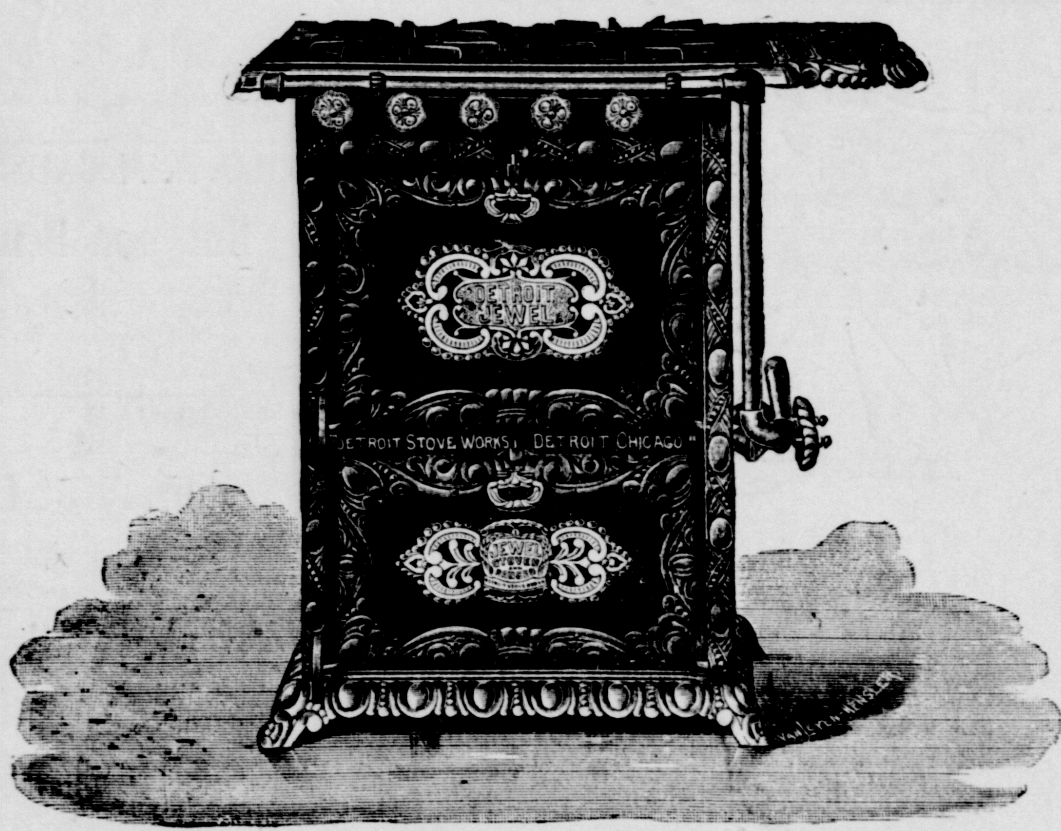

are still going at the same low advertised prices.

Come Saturday morning, April 11th, and get GINGHAMS at 4 $\frac{3}{4}$ c, worth 10 cents.
